

Protecting Child from Drug with Parenting

National Narcotics Board

**DEPUTY OF PREVENTION AFFAIR
NATIONAL NARCOTICS BOARD**

FOREWORD

Praise to the Almighty God's presence with the completion of the book Drug Abuse Prevention in Early Childhood Education Environment which will be used as reference for the Prevention and Eradication program, Drug Abuse and Illicit Drugs (P4GN) in the education environment.

This book is packed in a simple way and using language that is easily understood groove systematic presentation. This book is expected to be a reference for parents and teachers who are in the early childhood education environment so that they can participate actively in efforts P4GN.

Through the publication of this book, I hope to increase the motivation of the people involved in preventing drug trafficking, especially in early childhood education environment. Morally, the response to the dangers of drug abuse is not only borne by the government alone but all the people that there can also participate shoulder to shoulder tackle, in order to realize generation of Indonesia, The Golden Generation, Generation Healthy Without Drugs.
